Programmer

Co-ordinator
Shri. A.N. Devade,
Controller of Examinations

Two Days Workshop
on
Outcome Based Paper Setting

About the Institute :

Government Polytechnic, Kolhapur is the first autonomous government polytechnic in Maharashtra. It offers Civil, Mechanical, Electrical, Ind.Electronics, Electronics and Telecommunication, Sugar, Information Technology and Metallurgy Diploma Programmes out of which four Programmes had been accredited by National Board of Accreditation (NBA). New Delhi in 2003.

The Institute is located near Shivaji University, Vidyanagar, Kolhapur and is on Old Poona Bangalore highway 4 km from Kolhapur central, Bus stand.

Rationale:

Outcome-based education (OBE) is an approach to education in which the design of curriculum and courses is based on specified skills that the students display at the end of the course. In contrast to traditional education, this approach particularly concerns on preparing students for actual attainment. OBE focuses on what the students can actually learn from the course and to help students to learn and implement.

Program outcomes (PO) are the outcomes that students should have achieved by completing the diploma. In Government Polytechnic, Kolhapur the curriculum of all the programmes is designed and developed on the basis of defined outcomes of each course in the particular programme contribute to the achievement of the POs. Each course determines the course outcomes (CO) and soft skills that can be achieved by each student. It was the decision of the curriculum planners that specified learning outcomes of each course comprises of three learning domains; Cognitive, Psychomotor and Affective. In addition, the soft skills(e. g. Communication Skill, Critical Thinking and Problem Solving Skill, Teamwork Skill, Continuous Learning and Information Management, Entrepreneurship Skill, Moral and Professional Ethics, and Leadership Skills) are embedded in the curriculum as part of continuous efforts to ensure diploma holder is able to adapt to the changing situations, seek employment or setup one own business.

The attainment of COs can be assessed by using variety of assessment methods such as unit tests, major examination, quiz, assignment, project etc. As for paper based examination, the important information that should take into account in the paper is the questions co-relate with PO, CO, and its level. This workshop is intended to give benefits to faculty from this institute and other polytechnics implementing MSBTE's outcome based curriculum

Objectives :

The faculty participating the workshop will be able -

- 1) To reduce the amount of time in setting examination paper, and emphasis would be given to assign each question with suitable learning outcomes.
- 2) To improve the quality of examination paper by covering LOs in each question with suitable learning outcomes that need to be achieved by the course and in relevant manner as per the sp. table of the course.

Eligibility

Participants should be Teaching faculty of any discipline from Polytechnic.

Schedule Æ

Dates : 15th & 16th September 2017

Period : 2 days
